

**PRODUCT HIGHLIGHTS****Lidocaine 4%/Menthol 5%/Methyl Salicylate 4%**

- The only topical pain relief patch that combines two powerful analgesics with a non-steroidal anti-inflammatory drug (NSAID) in a unique transdermal delivery system—the most powerful patch of its kind on the market
- Ideal for today's active adults who demand potent, effective pain relief without having to take oral pain medications
- Three clinically proven pain relievers—methyl salicylate (NSAID), menthol (analgesic) and lidocaine (local anesthetic) combined into a durable, flexible patch to treat pain and inflammation
- Maximum comfort and durability with a specially designed cotton-based fabric patch and self adhesive Hydrogel delivery system plus an optional adhesive backing for extra strength and security
- Long lasting relief from pain and inflammation—up to 12 hours
- Medicated patch could be used by itself or with external adhesive. The patient can choose based on preference
- Specifically developed for today's active lifestyles to provide the ultimate in adhesion and flexibility for high motion areas including knees, elbows, shoulders and back
- Better product labeling, packaging and more presentable than other similar products
- Longest shelf life (4 years)
- Highest reimbursement in its class, with an Average Wholesale Price (AWP) of \$720/box
- Greatest patient satisfaction of any pain relief patch
